

# Sustainable Resources

## Agriculture 12

### Summer Credit Course

Oregon Grape

**July 6-August 7, 2015 8:30 am– 11:30 am**

**Queen Elizabeth Secondary School**

various field trips and hands—on learning activities open to Grades 10-12

This full credit course will offer students an experiential approach to learning about sustainable food systems. Students will leave with a greater understanding of traditional agriculture, sustainable agriculture and cultural interactions surrounding food and agricultural systems. Sustainable resource themes of understanding included: Elements of Agriculture, Sustainable Agriculture, Agricultural Production, Agricultural Supports and Challenges, and Coastal First Nations Ethno-Botany.

**Registration on-line**

Hosted by Aboriginal Education and Surrey Schools
